

REMARKS

Applicants appreciate the Examiner's allowance of Claims 32-49.

Applicants will address each of the Examiner's remaining objections in the order in which they appear in the Office Action.

Drawings

In the Office Action, the Examiner objects to the drawings under 37 CFR 1.83(a). In particular, the Examiner states that the claim limitation of "wherein the plurality of first power supply lines and the plurality of second power supply lines are connected through contact holes" of Claims 32 and 33 must be shown in the drawings or canceled from the claims.

In order to advance the prosecution of this application, Applicants are amending these claims to recite "wherein one of the plurality of first power supply lines and one of the plurality of second power supply lines are connected through ~~contact holes~~ a contact hole." It is respectfully submitted that this feature is supported by the drawings and specification. Applicants believe that no new matter is being added.

Accordingly, it is respectfully requested that this objection be withdrawn.

Specification

The Examiner also objects to the title as not descriptive. Therefore, Applicants have amended the title to recite "Light Emitting Device." Accordingly, it is respectfully requested that this objection be withdrawn.

Claim Objections

The Examiner also objects to Claims 40 and 41 for informalities therein. In response, Applicants have amended Claims 40 and 41 in accordance with the Examiner's suggestion. Therefore, it is respectfully requested that this objection be withdrawn.

Information Disclosure Statement

Applicants are filing an information disclosure statement (IDS) herewith. It is respectfully requested that this IDS be entered and considered prior to the issuance of any further action for this application.

Conclusion

It is respectfully submitted that the present application is in a condition for allowance and should be allowed.

If any fee is due for this amendment, please charge our deposit account 50/1039.

Favorable reconsideration is earnestly solicited.

Respectfully submitted,

Date: October 10, 2005
